

# University Medical Practice

The practice has said goodbye to Dr Emma Cheetham who retired from the partnership on 31/07/2026 after 14 years of dedicated service to our community.

We are enormously grateful for her commitment to patient care and leadership within the practice.

Patients who were under Dr Cheetham's care will continue to receive full clinical support from the wider GP team.

We wish Dr Cheetham every happiness in her retirement and hope she enjoyed the 80s themed retirement send-off party.

## Staff Updates

- Dr Klemm has returned from maternity leave & will be working Mondays, Thursdays & Fridays.

**Change  
Grow  
Live**

The next clinic at the surgery is

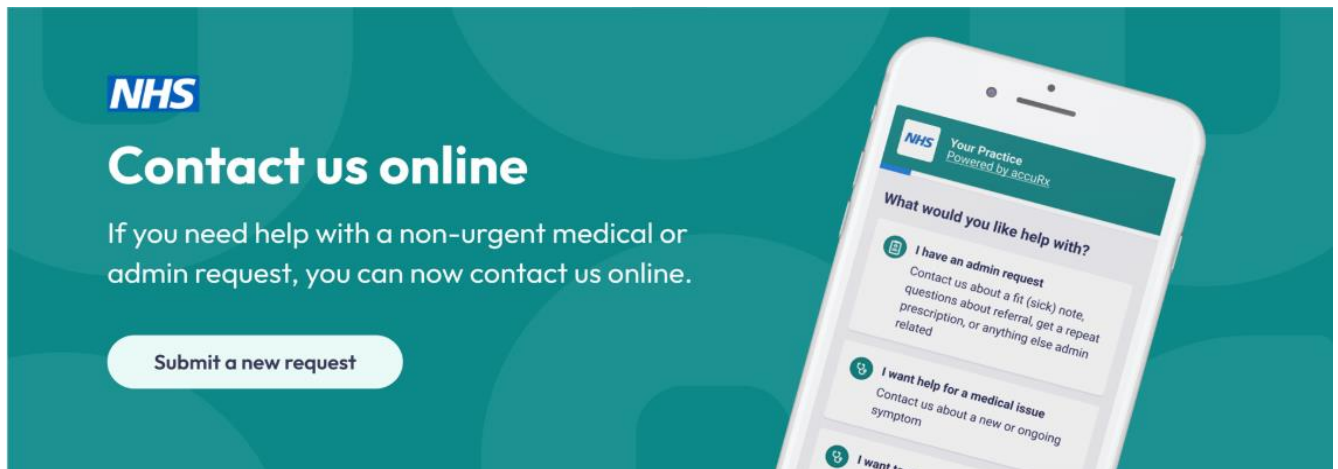

**25 August 2026**

The practice is currently working with CGL to put on outreach clinics at the practice once a month. If you are worried about or struggling with drugs or alcohol, please book an appointment online or speak to your GP

**[www.changegrowlive.org](http://www.changegrowlive.org)**

**You said – We did**  
**GP appointments bookable in advance**

**Online consultations available through the “Contact Us” page on our website**

The practice has implemented online submission forms so patients can request non-urgent GP appointments in advance. The form can be found on the Contact Us page on our website. Once the request is triaged, if an appointment is needed, a link is sent with a choice of appointments enabling patients to book their own appointment. If there is any feedback on this new system, please send this to [Fiona.mullin@nhs.net](mailto:Fiona.mullin@nhs.net) as we would love to know what you think.

**Patient Participation Group**

If you would like to have your say and be involved in our Patient Participation Group, please register your interest via the website [Patient participation group - University Medical Group](#) or pick up a form from reception. We would love to hear views from a wide range of patients.

**Did you know:** The practice worked with the Royal Berkshire Hospital throughout June & July to deliver outreach liver scanning appointments here at the practice to improve liver health. Invites were sent to eligible patients and over 140 scans were completed.
